

METROSIL[®]

8000 SERIES

● The Metrosil 8000 Series - a new standard in excitation protection

Protecting valuable assets is a top priority for any business. That's why Metrosil Excitation Protection Units are trusted by industry leaders worldwide. When faults occur, disruption to power generation is kept to a minimum - that's our commitment.

New for 2016 - improved Metrosil technology to meet the evolving needs of our customers.

● IMPROVEMENTS INCLUDE:

- Ergonomic design for ease of installation
- Protective bar avoids impact damage
- Anti-tamper device ensures unit integrity
- Rating plate clearly defines unit's capabilities
- Easy access connection points

● 100% TESTED AND CERTIFIED:

- All units high energy tested to 100% of its full specification - guaranteed
- Metrosil 'pass' badge is your sign of excellence
- All units shipped with individual test certification
